**“RIVERS AND TIDES – ANDY GOLDSWORTHY, WORKING WITH TIME”**

(Germany / Finland / UK /Canada - 2001 - a film by Thomas Reidelsheimer - 91mins )

A mesmerizing and poetic look at the celebrated environmental artist Andy Goldsworthy, whose medium is nature itself and whose preferred studio is the outdoors. The soft-spoken, secluded Goldsworthy is seen making ephemeral sculptures out of bits of ice in trees and building tall, mysterious cones from loose rock which stand like spiritual sentinels in forests and on shorelines. An intoxicating study of the fragile relationship between man, art and nature.

The Ventura Film Society, in partnership with the WAV, will hold film screenings at the WAV Theatre Gallery on the first Wednesday of every month, starting June 2nd through the end of the year. **TICKETS \$10 DONATION FOR GENERAL ADMISSION, \$7 FOR STUDENTS, SENIORS AND WAV.**
